FRI 2018 Annual Spring Meeting

May 22–23, 2018

Pyle Center
702 Landon Street
University of Wisconsin-Madison
Madison, WI 53706

Food Research Institute
UNIVERSITY OF WISCONSIN-MADISON

Agenda Summary

Description

Food safety experts from government, industry, and academia will gather in Madison, Wisconsin on May 22 and 23 for the annual Food Research Institute Spring Meeting at the University of Wisconsin-Madison. Throughout its history, the Institute has helped the food industry identify and solve food safety issues. Its focus on food microbiology and toxicology involves effective partnerships with industry and government.

The formal program will include presentations on *Listeria* control in dairy environments, CRISPR technology in developing probiotics, host-parasite interactions, diet and human health, updates on recent foodborne outbreaks, decision tools for product developers, sustainability and food waste, and more. This meeting features scientists from the University of Wisconsin-Madison and other universities as well as industry and government.

Craig Hedberg from the University of Minnesota will present the William C. Frazier Memorial lecture and will be recognized for his contributions to food microbiology and safety. Tuesday evening's program features a poster session, reception, and opportunities to network with colleagues.

Who Should Attend

Anyone involved in food safety, product development, food microbiology, food quality assurance, or public health, including processors, retailers, nutritionists, consultants, educators, students, and government professionals.
