

Food Research Institute

UNIVERSITY OF WISCONSIN-MADISON

2022 Summer Undergraduate Research Program Food Microbiology and Food Safety Research

Dates: Monday, May 23rd through Friday, July 29th, 2022.

Applications Due: Friday, February 11th, 2022.

Stipend: \$5,000 (before taxes)

Research Project: Each student studies and conducts research in the laboratory of a mentor on a project related to food safety. Students with significant conflicts such as summer classes, extended trips, etc. should state these on their application. Students who will graduate before Dec. 2022 will not be considered nor will those receiving Hilddale awards.

Weekly Tutorial: Each week, students participate in a tutorial session in which they learn about and discuss timely issues with one or more speakers from campus or the food industry.

Field Trips: Students take two field trips to Wisconsin food production facilities.

To Apply: Please e-mail the following by **Friday, February 11th, 2022**, to Adam Borger at adam.borger@wisc.edu:

1. A **letter** stating your interest and experience in food microbiology, and how the program will help you achieve your career goals.
2. A **resume**.
3. The **name of your proposed mentor** who agrees to support your project in his or her lab — See the Food Research Institute website for possible mentors and their research programs: www.fri.wisc.edu.
4. An **unofficial transcript**.
5. An **"Instructor Evaluation Form"**, to be filled out by a professor or laboratory instructor able to evaluate your strengths and capabilities. The form may be found at: https://fri.wisc.edu/about_students.php. Please have the evaluator send this form directly to Adam Borger (adam.borger@wisc.edu).

Questions? Contact Adam Borger: adam.borger@wisc.edu, 608-263-7062.
